SourcEdge

Claims System Modernization

Improving operational efficiencies and customer satisfaction

As a strategic partner, we leverage existing software functionality and lead efforts to install, configure, test, and go live with claims systems. This gives our clients a competitive advantage, improves organizational efficiencies, and increases ROI.

Our Services

Strategy
· Readiness Assessments
· Requirements
· Product Fit Analysis
· Solution Architecture

Implementation
· Configuration
· Integration
· Testing
· Go-Live

Operations

· Service Level Agreements (SLA)
· Reporting & Analytics

At SourcEdge, we live and breathe in the world of IT for health plans. We serve as a trusted technology solutions provider, staying on top of the regulatory mandates to protect patient information.

Flexible Engagement

Project Delivery

We lead and implement full lifecycle projects that maximize the value from IT systems, meet regulatory requirements, gain operational efficiencies, and secure competitive advantages.

Consulting

To meet the customized needs of our clients and fill the gaps between staff augmentation and full-implementation, we provide à la carte consulting services for technology-enabled healthcare.

Staff Augmentation

Through our broad and deep healthcare network of talented people, we augment our client's staff with experts who understand the business and technologies our clients rely on every day.
